

Hi [TEAM MEMBER NAME],

Have you heard about our newest opportunity? It's an online service called Snap2Finish, where you can use your photos to create amazing items for yourself, your home, and your loved ones!

Snap2Finish lets you customize lots of different things: business cards, posters, and even pillowcases! Once you make an account on the Snap2Finish site, you can start uploading photos and adding them to the products of your choice. It's a great way to get pictures off your phone and back into your home, where you can enjoy them every day.

Check out Snap2Finish.com to create something – If you have questions, let me know!

Enjoy!
