

Children have a natural love for essential oils. Because of that and their natural curiosity, it's important to make their experience with essential oils safe and fun. The ultra-portable roller bottles in this kit can be taken anywhere and kept on hand for when they are needed. Each of these natural essential oils were diluted for easy use and carefully chosen for their gentleness and effectiveness. They are suitable for daily use with babies and children.

SAFE

Dilution of essential oils is necessary when they are used on children. The oils in this kit have been pre-diluted to the recommended amount of 1%. Only try one oil at a time on the bottom of the feet for 1-2 days, to make sure your child has no allergic response.

CONVENIENT

Pre-mixed roller bottles make application easy! Keep a kit in your diaper bag, bathroom, or in your child's bedroom.

EASY TO USE

Simply roll the oil on the bottom of the feet or the affected area. You can also apply it to your hand, then gently massage it on the problem area. After application, dress your child to cover any areas that have been treated with essential oil, so they will not touch the oil and rub their eyes accidentally. Always avoid your child's eye area and hands.

FUN FAMILY ACTIVITY

Have a healing and bonding moment with your child by including them in the process! Keep your hands a few inches away from your child's face, and let them smell the oil. If your child smells the cap each time you use an essential oil, they will eventually be able to recognize the color and aroma of each bottle. They may also be able to tell or show you which one they know will work for them.

The Children's Blending On-The-Go Kit provides gentle, natural relief from minor aches, pains, and discomfort. These oils were specially chosen to help ease a variety of symptoms that children often experience. Perfectly portable, this kit includes 7 pre-mixed roller bottles for quick and easy application. To use: Roll a small amount of oil onto the bottom of the feet and massage them. You may also apply the oil to the affected area and massage gently.

Each Children's Blending On-The-Go Kit includes 7 Youngevity® Essential Oil Roller Bottles:

- > LAVENDER & CHAMOMILE 1%
- > RED MANDARIN 1%
- > LAVENDER, MAILLETTE 1%
- > FRANKINCENSE & LAVENDER 1%
- > COMFORT TOUCH™ 1%
- > ROSE 1%
- > NEROLI 1%

Food and dietary supplement products sold by Youngevity are intended to contribute to the daily diet and overall health and are not intended for use in the prevention, treatment, mitigation, or cure of any disease or health related condition. Individuals who have or suspect they have an illness or who wish to commence a diet or exercise program should consult an appropriately licensed health care practitioner for a medical history evaluation, diagnosis, treatment, and health recommendations.

ESSENTIAL OILS

Children's BLENDING ON-THE-GO KIT

ROSE may provide you with relief from depression, ease stress, calm nerves, relieve constipation, and reduce inflammation. Rose and Rose Geranium Essential Oils should not be confused and are not related.*

LAVENDER, MAILLETTE is among the most widely used essential oils for emotional support. This blend may help to prevent swelling and scarring from burns. It may help to relieve irritation from insect bites and protect pets from insects and parasites. Lavender may also assist with pain relief and the reduction of nasal mucus production.*

RED MANDARIN tends to have a calming effect on children. When used in a bath or diffused in the air, this oil helps relax people of all ages, and is particularly helpful at bedtime. Rubbing Red Mandarin Essential Oil on the stomach may help to relieve indigestion, flatulence, constipation, and stomachaches. It may also be beneficial for painful skin issues.*

FRANKINCENSE & LAVENDER may stimulate healing and lessen scar tissue formation, making it an excellent choice for skin and hair care.

It is excellent for emotional support when dealing with anxiety, trauma, depression, and grief. When applied to the chest, this oil may help relieve asthma and promote the discharge of mucus or phlegm from the chest and lungs. This blend may also strengthen the immune system, reduce inflammation, relieve intestinal gas pain, increase urine production, and rid the body of excess fluid.*

NEROLI is thought to balance the emotions and the heart. Neroli oil may also help soothe sensitive, inflamed skin or tone and repair the skin. This oil may assist with anxiety, shock, or anger, and is useful as a sleep aid. It also may relieve intestinal gas pain.*

LAVENDER, CHAMOMILE is a blend that is calming for stress, tension, and insomnia. This blend may help to relieve spasms, cramps, muscular pain, migraines, and teething pain. It is excellent for hair and skin care, and may be used to ease cradle cap, burns, dermatitis, ulcers, and wounds. It may also help to relieve digestive upsets and colic.*

COMFORT TOUCH™ was formulated primarily as a first aid blend for children and their particular needs, especially for small scratches and bruises. Comfort Touch™ is an excellent pain reliever and may assist with anti-inflammatory respiratory ailments such as coughs, bronchitis, asthma, and sinusitis.*
