

### Joel Wallach, BS, DVM, ND

The concept of the 90 essential nutrients was developed by Joel Wallach, BS, DVM, ND, founder of Youngevity® Essential Life Sciences. A pioneer in biomedical research, Dr. Wallach spent nearly twenty years in the field of Veterinary Medicine, observing and researching the effects of individual nutrients on animal health, before becoming a Naturopathic Physician in 1982. Today, he is renowned for his ground-breaking research on the health benefits of Selenium and other minerals. He is the recipient of the prestigious 2011 Klaus Schwarz Commemorative Medal, which recognizes the work of pioneers in the field of trace element research.

### First Amendment Advocate

Dr. Wallach currently dedicates his time to lecturing throughout the world on the therapeutic benefits of vitamins and minerals, and on lobbying the U.S. Food and Drug Administration on behalf of the dietary supplement industry. His tireless efforts and dedication to the public's First Amendment rights to complete information on the therapeutic benefits of nutrition prompted the FDA to establish Qualified Health Claims for Selenium and Omega-3 Essential Fatty Acids. Only a few Qualified Health Claims exist, placing Youngevity® Essential Life Sciences in a unique position among Dietary Supplement and Direct Marketing companies.

# The Foundation for Good Health

True health and wellness is only possible if it radiates from a solid, fundamentally-sound center. Although the human body's systems are complex and multidimensional, there exists a core group of 90 essential nutrients that have the greatest influence in support of vibrant health.

These 90 essential nutrients are at the very center of Youngevity's **90 For Life™** campaign which is committed to improving lives through science-based, high-quality nutrition.

The 90 essential nutrients form the foundation for Youngevity's signature **Healthy Body Start Pak™ 2.0**, a set of supplements specially selected for their excellent nutrient content, quality and efficacy. It includes Beyond Tangy Tangerine® 2.0 Citrus Peach Fusion, Beyond Osteo-fx™ Powder, and Ultimate™ EFA Plus™. Individually, each product targets specific areas, needs, and nutritional deficiencies of the body. However, *their combined nutrients—including the 90 essential nutrients and beyond—work synergistically to support the body's total fundamental needs.\**

### Nutrients to Help Your Health Blossom

The **Healthy Body Start Pak™ 2.0** provides an excellent nutritional base for people of all ages. But it's just the beginning. Every individual faces different challenges, such as health concerns and daily stresses, resulting in his or her own unique nutrient requirements.

Fortunately, Youngevity® offers more than 1,000 nutrition and lifestyle solutions to meet each individual's specific needs.

To illustrate the concept of how Youngevity's products work together in concert, think of a beautiful sunflower blossom (see right).

- The center represents the 90 essential nutrients
- The stem represents our Majestic Earth® Plant Derived Minerals™
- The petals and leaves represent nutritional support for specific health concerns

Together, the center, stem, petals and leaves of the flower form a picture of vibrant and flourishing health.
