

## GOOD HERBS™

THE QUALITY HERBS THAT WORK!

Good Herbs™ began with a mission to heal the planet, one person at a time. By using the highest quality, liquid herbal products available, the company is able to bring this vision of health and healing to the world.

All Good Herbs™ liquid supplements are wild-crafted or organically grown. They are produced without the use of heat or electrical machinery during any step of the process; they remain “whole herbs” without adulteration. Thus, the herbs remain in their whole form, which is what the body responds to. In addition, chemical fertilizers, pesticides, herbicides, irradiation or standardization are never used. Maintaining room temperature throughout every step of the process ensures the integrity of the herbal dietary supplements.

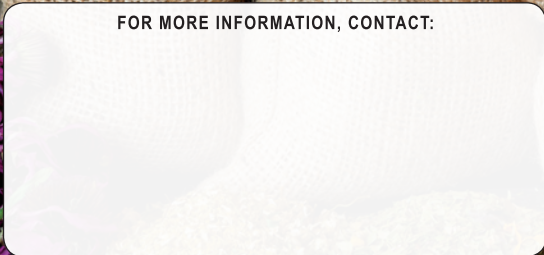

GOOD HERBS PRODUCTS TRULY ARE,  
“QUALITY HERBS THAT WORK.”

- Pure, unaltered whole herbs
- Free of chemicals, pesticides and herbicides
- No irradiation or standardization
- Wild-crafted or organically grown
- Targeted formulas to support individual health concerns†
- Up to 3x the concentration of herbs compared to other herbal extracts
