Even if you think you eat well, get enough exercise and live a healthy, active lifestyle, is it enough? Surprisingly, the Centers for Disease Control show **76 percent of adults do not meet fruit intake recommendations**, and **87 percent do not meet vegetable intake recommendations**.

Our consumption of sugar, fat, salt and carbohydrates has never been higher while depleted soil, crop changes and seasonal inconsistencies are yielding less nutrient-dense food. **Our bodies are desperate for nutrients** but we can't solely rely on our food sources to deliver them anymore. This is why Youngevity's **90 For Life™** system was created.

Blending science & nature.

A whole line of wellness solutions for the whole you.

The foundation of health and wellness is good nutrition to help support a healthy body. Youngevity® offers a line of wellness products to help you live your best life – for any age, any lifestyle, any need!

At the core is the Healthy Body Start Pak™ – a part of the 90 For Life™ system.

The **Healthy Body Start Pak™** brings together **60 minerals, 16 vitamins, 12 amino acids**, and a powerful blend of EFAs...90 carefully blended components to create the optimal mix your body needs to thrive and feel your best.

To learn more about **90 For Life™** and how to live healthier, longer visit youngevity.com/90forlife.

He has studied nutrition for over 30 years, and is deeply involved in ensuring that Youngevity brings cutting edge, innovative products to market to meet the needs of your modern lifestyle. Trusted for years, used by many people around the world – see how good you can feel when you use 90 essential nutrients for 90 days.

Whole Foods

Round out a well-balanced diet.

When fresh, local vegetables are not available, canned or frozen options often have to suffice. Though rich in fiber and other nutrients, the nutritional value of those options are much less than their fresh-picked counterparts. Utilising a whole foods supplement to ensure you're getting the highest quality source of vitamins and minerals is imperative to support all of your body's functions.
