

# ULTIMATE PARACLEAR™

SKU 20972

## Nutrients That Support Immune Health and a Natural Cleanse

### Phytonutrients

As scientists continue researching new medicinal therapies, they've been able to explore and substantiate the many potential benefits of traditional herbal remedies, giving us more options for holistic, natural care. Many common plant extracts from around the globe contain vital compounds that support human health – these are called phytonutrients.<sup>1</sup> You already get some through the fruits and veggies you normally eat, but there are many more that can be obtained through plants we don't typically see on our dinner plates.

Ultimate ParaClear's targeted, proprietary blend of phytonutrients is designed to support gastrointestinal and immune health through a natural cleanse. Traditional herbal remedies like Wormwood, Black Walnut, Clove Bud, and Garlic naturally contain many bioactive, antioxidant, and other immune-supporting compounds, simultaneously bolstering your immune system and making it an uninhabitable environment to any potential pathogens or invaders.

### Minerals

Minerals are vital for overall health and longevity, giving our bodies the nutrients they need to support a variety of body functions and systems – especially the immune system.<sup>2,3</sup> With our fruits and veggies providing less and less of these vital nutrients than they did just a few decades ago,<sup>4</sup> it's more important than ever to secure a reliable source of minerals that support overall and immune health. That's where Ultimate ParaClear™ comes in!

### Supplement Facts

	Serving Size: 2 Capsules	Servings per Container: 30
	Amount per Serving	%DV*
Zinc (from zinc bisglycinate chelate)	2.2 mg	20%
Selenium (from l-selenomethionine)	11 mcg	20%
