

PROCARDIO FX™

COMPLETE CARDIOVASCULAR SUPPORT†

ProCardio FX delivers unparalleled nutritional support for the entire vascular network.†

YGY4U.COM/PROCARDIOFX | SKU#: USY6100093

CARDIOVASCULAR HEALTH IS THE #1 CONCERN AROUND THE WORLD

Cardiovascular health continues to be a major concern around the world. In 2015, cardiovascular disease was accountable for about 31% of deaths globally. However, what makes this number even more astonishing, is that most instances of cardiovascular disease are preventable. By simply addressing behavioral risk factors such as smoking, diet, and physical activity, you could significantly minimize the risk of cardiovascular disease. Research has also shown that specific nutrients are able to support the health of the cardiovascular system to improve cardiovascular health.

PROCARDIO FX™ DELIVERS COMPLETE CARDIOVASCULAR SUPPORT†

ProCardio FX™ delivers a diverse blend of some of the most researched cardiovascular-supporting nutrients. Each ingredient delivers targeted support to an element within the cardiovascular system. Specifically, ProCardio FX™ supports healthy blood vessels to promote healthy blood flow, circulation, and energy production within the body. Plus, antioxidant-rich nutrients such as selenium, turmeric, and resveratrol help deliver a healthy response to oxidative stress to protect cells from free radical damage.†

What makes ProCardio FX™ even more unique is that it combines a wide-range of fat-soluble nutrients in an EFA soft-gel. This powerful combination of synergizing nutrients makes ProCardio FX™ an ideal nutritional formula for individuals looking for advanced cardiovascular support.†

Supplement Facts

Serving Size: 2 Softgels
Servings per Container: 30

	Amount per Serving	%DV*
Vitamin D3 (as cholecalciferol)	500 IU	125%
Vitamin E (from sunflower as d-alpha tocopherol)	11 IU	37%
Iodine (from kelp)	50 mcg	33%
Selenium (as selenomethionine from yeast)	50 mcg	71%
Fish Oil (supplying):	1000 mg	*
Eicosapentaenoic Acid (EPA):	330 mg	
Docosahexaenoic Acid (DHA):	220 mg	
Turmeric (95% curcuminoids)	100 mg	*
Resveratrol (<i>Polygonum cuspidatum</i>)	50 mg	*
Quercetin (as dihydrate)	25 mg	*
Co-Enzyme Q10	20 mg	*
Bioperine™ (95% black pepper)	10 mg	*
Garlic Oil Concentrate (500:1) (<i>Allium sativum</i>)	10 mg	*

* Daily Value (DV) not established.

OTHER INGREDIENTS: Fish Oil (from Anchovy, Sardines), Gelatin, Glycerin, Purified Water, Beeswax, Lecithin, Caramel Color.

HEALTHY BLOOD VESSELS PROMOTE AN OVERALL HEALTHY CARDIOVASCULAR SYSTEM

→ **NEXT PAGE:** INGREDIENT BENEFITS

HEALTHY BLOOD VESSELS, HEALTHY CARDIOVASCULAR SYSTEM

Many people tend to put cardiovascular health and heart health in the same box. While the heart is very important, it's really just a pump. What truly keeps the cardiovascular system running efficiently is the vast network of blood vessels (arteries, arterioles, capillaries, veins and venules) that must remain flexible, elastic and responsive to transport oxygenated blood with nutrients throughout the body. When blood vessels are exposed to toxins, including free radicals, the system becomes compromised, which may result in cardiovascular disease.

PROCARDIO FX™ CONTAINS 11 SYNERGIZING NUTRIENTS THAT TARGET SPECIFIC AREAS OF CARDIOVASCULAR HEALTH!†

Omega 3 – an essential fatty acid that supports low levels of triglycerides and helps decelerate the supply of arachnoid acid, a pro-inflammatory omega 6 fatty acid.†

Selenium – an essential mineral with antioxidant properties that help protect cell membranes and blood vessels from damage.†

Quercetin – a flavonoid antioxidant that helps combat inflammation and may also prevent inflammation causing enzymes, COX and LOX.†

Turmeric – known for its high antioxidant value, turmeric root may help the body combat oxidation and free radical damage.†

Resveratrol – an antioxidant that helps protect the endothelium wall from damage by supporting the production of nitric oxide.†

Garlic – the high amounts of allicin found in garlic have been found to help the cells that form the lining in blood vessels to relax and allow more oxygen to be transported throughout the body.†

CoQ10 – studies have found that coenzyme Q10 (CoQ10) supports energy management. When combined with selenium, it may help reduce your risk for cardiovascular disease.†

Iodine – an essential mineral needed to produce thyroid hormones which affect nearly every tissue in the body.†

BioPerine™ – a patented black pepper extract that helps enhance the bioavailability of nutrients to enhance absorption by the body.†

Vitamin D3 – low levels of vitamin D have been associated with increased risk of cardiovascular disease, including high blood pressure, insulin sensitivity and inflammation.†

Vitamin E – a powerful antioxidant that may help protect your cells from damage by combating free radicals.†

SYNERGIZING BLEND OF NUTRIENTS

ProCardio FX™ delivers a broad-spectrum blend of synergizing nutrients that help support the complete vascular system.†

- Delivers targeted support for the overall vascular network†
- Supports healthy blood vessels†
- Promotes healthy blood flow and circulation†
- Supports optimal energy production†
- Contains antioxidant-boosting CoQ10, selenium and turmeric
