INGREDIENTS THAT MATTER!

Chitosan - fiber composed of chitin, which is a component of the shell of shellfish; it can absorb many times their weight of fat and cholesterol. Key ingredient for fat absorption and trapping.

Garcinia Cambogia - helps suppress the appetite.

Inositol - improves circulation and increases oxygen.

Fennel Seeds - fiber that helps absorb the flushed out fats to form perfect stools; it also helps prevent irritation of the bladder, urinary infections.

Pantothenic Acid - vitamin B complex; plays an essential role in energy and metabolism; helps convert fat and sugar to energy.

Chromium - helps prevent sugar cravings and sudden drops of energy; helps with carbohydrate utilization.
