SYNAPTIV™ is a cutting-edge, unique brain-supporting supplement, delivering powerful nutrients in an immediate and extended release bi-layered tablet. It is the first supplement that supplies immediate anti-stress nutrients for instant brain-boosting support while also delivering extended release antioxidants for long-term brain health benefits.

SYNAPTIV™ is a ground-breaking, brain-support supplement that supplies immediate and extended release nutrients to promote optimal brain function.

SYNAPTIV™ ANTIOXIDANT NEUROPROTECTION & BRAIN SUPPORT

- Provides scientifically measurable neuronal-stress-combatting activity.†
- Supports mental focus by helping reduce anxiety levels.†
- Promotes optimal signal strength of neurotransmitters in the brain.†
- Supports enhanced cognitive activity.†
- Supports healthy memory and cognitive function.†
- Delivers vitamins and minerals essential for brain and nervous system health.†
- Includes organic, whole food synergizing co-factors for optimal activity!†
- Includes Full Spectrum Antioxidant Blend for enhanced neuro-protection.†

THE POWER OF THE BRAIN

The brain is the coordinating center of sensation, intellectual and nervous activity in the human body. It receives information, organizes and distributes it. It not only plays a vital role in the way you think, feel and respond to things, but it is also vital in controlling autonomic and motor functions in the body. Our brain stores all the information we gather, alerts us of dangers and helps us rationalize material. Without proper brain and neuron function, the human body cannot function properly. Unfortunately, our brain and neural activity is continuously being compromised; diminishing our overall health.

SYNAPTIV™ ADVANCED
BRAIN-BOOSTING NUTRIENTS:

In order for the brain & neural system to function optimally, there are immediate and continuing demands that need to be satisfied. When stress levels are increased, you want to manage your stress levels instantly. To prevent neural-related illness and other mental health concerns, you want to deliver nutrients to your body that will help you lead a long, healthy life. For this reason, Synaptiv™ was designed to deliver nutrients in a unique, bi-layered tablet that releases nutrients both immediately and slowly, for overall brain and neural support.¹

**Immediate Release**

**Blueeness™ Brand Lemon Balm Extract**

• Supports neuronal stress-combatting activity¹
• Promotes mental alertness and focus¹
• Positive cognitive effects felt within an hour¹

**Extended Release**

**Huperzine A**

• Promotes optimal signal strength of the neurotransmitters²
• Supports healthy memory and cognitive function²
• Supplies neuro-protective activity²

**Youngevity Full Spectrum Antioxidant Blend**

• Delivers a complete spectrum of antioxidants to target 6 major classes of free radical that inhibit brain function.¹

**Synaptiv™ Complex Support**

• A powerful array of brain-supporting nutrients that support healthy blood flow to the brain and brain cell oxygenation and protection.¹

**7 Vitamins & Minerals**

• Essential nutrients known for their brain and nervous system support with synergizing co-factors for optimal absorption.¹

**Suggested Use:** As a dietary supplement, for adults: Take 2 tablets or as directed by your healthcare professional.

**TIPS TO KEEP YOUR BRAIN HEALTHY**

**Recruit Your Brain**

Engage in creative and stimulating activities that will help nurture mental health. This means step away from the TV and pick up a crossword puzzle, learn a new language, or even take an art class.

**Exercise**

Your brain is in charge of your movement. By exercising and moving around daily, you involve your brain and neurons and help keep yourself stimulated.

**Eat Nutrient-Dense Foods**

The foods you eat will either nourish your body (for a long, healthy life) or harm your body (causing chronic inflammation and disease).

**Socialize**

Engaging in social settings and participating in activities helps reduce mental stress and will stimulate brain and neural activity.

**Monitor Your Stress**

As we know, chronic stress leads to a wide-range of health problems. Avoid stressful situations and do things to help you relax and unwind; such as meditating, reading, going for a walk, or other calming activities.
