Gluten-Free

32 oz. (946 mL)
Item Code #13201

OUR SOILS WERE NOT ALWAYS DEFICIENT IN MINERALS

When dinosaurs roamed the earth 70 million years ago, they were probably walking on ground abundant with at least 84 minerals. Plants likely contained at least 77 minerals, which became water-soluble as they transmuted through the root system. These luscious, succulent, vibrant, and life-sustaining fruits and vegetables have been encapsulated in the Earth's crust since that time. Each quart of **Ultimate Classic**® contains a wide spectrum of plant derived minerals leached from ancient humic shale mined from Southern Utah and ranging from A to Z on the mineral list. **Ultimate Classic**® also contains vitamins, amino acids, major minerals, and other beneficial nutrients. This product is made from all natural ingredients and has no starch, wheat, or yeast. Absolutely no animal derivatives are used in the production or testing of **Ultimate Classic**®. The only sugar in this product is derived from natural vegetable glycerine.

**
