

## **Year in a Snap Facebook Invite Text**

Hey friend! I know you love to take photos. Have you printed the ones you've taken? I have so many photos that I want to use, so I started looking at options and found a system that is quick and easy. I'm having a get-together at my house for the next three months starting on <Thursday, July 20 at 7:00 pm> and I'd love to have you come. The group is other friends that want to get their photos into albums and books.

Let me know if I can add you to the attendee list. If I don't hear from you by <July 18th>, I'll check with you again.

Can't wait to see you!
