TO SHARE WITH CUSTOMERS

Refer them to your personalized website, davidallencapital.com/YourID#. Client clicks "merchant processing" and completes the intake form. Our solutions partner, Anovia Payments support team will contact your client, gather the supporting documents, and discuss plan options with your client. You will be notified once client has terminated discussions or is activated on service.

Monthly Retail Profit: 50% BV

Personal QV = BV

Monthly BV: Varies by company revenue (rule of thumb ¼% of monthly processing) and reports the 2nd month after processing

Example: a customer of yours does \$100,000 per month in processing. QV and BV would be about \$250/month (¼% of \$100,000 processing). Retail profit to you would be \$125/month (50% of monthly BV).
