

# YOUNGEVITY TELECARE™

## Save On Prescriptions!

Your Telecare Discount Rx card is accepted at 54,000 pharmacies across the country and is good on more than 50,000 medicines from generic to name-brand.

### FREE PHARMACY CARD TO SAVE YOU MONEY

With a free pharmacy discount card from TelecareRx, you can save up to 85 percent on FDA-approved medications. No matter how much savings are projected, a prescription savings program would be useless if trustworthy pharmacies and stores do not participate in the plan. Our nationwide network incorporates more than 54,000 stores and includes pharmacy chains, independent drugstores and retail outlets such as Kroger, Kmart and Walmart. These stores have partnered with us because they want to play an active role in helping Americans find an affordable solution to the rising cost of prescriptions. Experienced professionals will fill your prescription regardless of which location you patronize and all locations are HIPPA compliant. Your information will never be given to a third party or sold to a marketing firm.

No unnecessary forms to complete.

No waivers for pre-existing conditions.

No hidden membership fees.

No wasted time waiting.

No age or income requirements.

### TO SHARE WITH CUSTOMERS

Refer them to your personalized website, [youngevitytelecare.com/YourID#](http://youngevitytelecare.com/YourID#) where they can click on "DiscountRX". They can then print your card and present to pharmacist. You can also order 1000 personalized cards at [YGYPRINTTOOLS.com](http://YGYPRINTTOOLS.com) to hand out to others.

**Retail Profit:** 50¢ per Rx per month.

**Personal QV:** \$3

**BV:** \$3.

**Example:** You have 100 users each filling 2 prescriptions per month (200 total). You would earn \$100/month retail profit and have personal QV toward qualifications of 600. BV would be 600 also. Note: Customers are counted for Retail profit and Volumes the month after Prescription is filled.
