TO SHARE WITH CUSTOMERS

Refer them to your personalized website, youngevitycommunications.com/YourID#. Client clicks "request a quote" and completes the intake form. Our solutions partner, Telegration will contact your client and discuss solutions and secure account. You will be notified once client has terminated discussions or activates service.

Up Front Retail Profit: 3 x BV

Residual Retail Profit: 50% of BV

Personal QV = 2x BV

Up front BV = Varies by service (rule of thumb = monthly bill amount)

Residual BV = Varies by service (rule of thumb = 5% of monthly bill amount)

Example: a customer of yours orders services totaling \$3,000/month. UP front BV could be \$750 and QV \$1500. Retail profit could be \$2,250 (2.5 x BV). This occurs the 2nd month after first bill occurs.
